

A special focus of the Malaysia International Agro-Bio Business Conference

This conference is jointly organised by the Malaysia Agricultural Research and Development Institute (MARDI), Marditech Corporation Sdn Bhd (Marditech) and Kumpulan Utusan. The World Food Shortage Conference gives focal point to the global issues that affect us all as a special focus of the Malaysia International Agro-Bio Business Conference.

It brings together an international and targeted platform of prominent speakers, thinkers, academics and practitioners who converge on finding and presenting viable solutions to the problem of global food securities within depth and farsighted strategies.
