

Global SMEs is an annual trade event that has been successfully creating a dynamic and comprehensive platform for solution and resources providers to showcase their latest products and services for the development of SMEs. Featuring thematic solution centers that help SMEs in full capacity building, it is also a gathering venue for local and international SMEs to explore trade opportunities and develop international network. It is also a platform for technological exchange and collaborations for Global SMEs. Extensive business activities include one-to-one business matching sessions, trade missions, conferences, seminars, workshops, product launches and many more.
